

# Remote Area Lighting System

The HS-LER-46-12000B model adds 3 new great features to make it even more useful.

The additional features offered on the model make the HS-LER-46-12000B an even more valuable piece of equipment. This Remote Area Light includes three additional features from the standard HS-LER-46-12000B , 1) remote control activation, 2) multi-terrain trolley and 3) a 12volt power supply port.

The remote control allows for activation and deactivation from over 60 feet away. Each unit comes equipped with two remote controls. The multi-terrain trolley allows for easier transport across rough surfaces. The large 1.5 inch polyurethane wheels play a large roll in this benefit. Everyone can benefit from the 12 volt power supply port which can be used to power any electrical product that utilizes a standard 12v vehicle style connector (up to 4 amps), like lap top computers, cell phones, etc.

All other features on the HS-LER-46-12000B are the same as found on the standard HS-LER-46-12000B including the four LED light heads producing 12,000 lumens of light (with telescoping 6 foot poles), Intelligent Control System which calculates and displays current battery life, allowing the user to regulate the intensity of the light and choose the desired run time, a Hsecurity 1610 protector case that contain and protect all components during travel and storage, a self contained rechargeable battery and battery charger.

Code **HS-LER-46-12000B**

## Technical Specifications

### Applications

#### Light Source

LED Type	LED Life	Tested Lumen Value
High Flux LED	50000 hrs.	1000 (Low) 12000 (High)
Lamp Heads	Number of LEDs	Beam Spread
4	6 LEDs per head	120°
Brightness Settings	--	--
Variable	--	--

#### Power Source

Battery Type	Battery Burn Time	Battery Charging Time
12v Rechargeable, Sealed	40 hrs. (Low) 7 hrs. (High)	8 hrs. from full discharge
Battery Life	Low Battery Warning	12V Primary Sockets
500 cycles	iControl	4
12V Auxiliary Sockets	Watts	Voltage
1	--	12
